Logs   Clear 💣   Debugger →

```
Requirement already satisfied: numpy≥1.14.6 in /usr/local/lib/python3.7/dist-packag    2:37 PM
es (from scikit-learn→r requirements.txt (line 3)) (1.19.5)
Collecting threadpoolctl≥2.0.0                                                         2:37 PM
   Downloading threadpoolctl-3.1.0-py3-none-any.whl (14 kB)                            2:37 PM
Collecting scipy≥1.1.0                                                                 2:37 PM
   Downloading scipy-1.7.3-cp37-cp37m-manylinux_2_12_x86_64.manylinux2010_x86_64.whl   2:37 PM
(38.1 MB)
Requirement already satisfied: MarkupSafe≥0.23 in ./.local/lib/python3.7/site-packa    2:37 PM
ges (from Jinja2≥2.10.1→Flask→r requirements.txt (line 1)) (1.1.1)
Installing collected packages: threadpoolctl, scipy, scikit-learn                      2:37 PM
```
ERROR: Could not install packages due to an OSError: [Errno 28] No space left on dev   2:37 PM
ice

2:37 PM

WARNING: You are using pip version 21.3; however, version 23.1.2 is available.   2:37 PM

You should consider upgrading via the '/usr/bin/python3 -m pip install --upgrade pi   2:37 PM
p' command.

3 minutes ago

 * Tip: There are .env or .flaskenv files present. Do "pip install python-dotenv" to   2:37 PM
use them.
 * Serving Flask app "server" (lazy loading)   2:37 PM

App Status   Warn

◇ **Memory**   5%   ◇ **Disk**   95%
                   23MB / 512MB   189MB / 199MB

You may have problems saving changes
when your disk is full. Try removing unneeded
files or deleting old data. Check out the help
center guide on how to do this.
